CORE CAPABILITIES

Staffing Dental Personnel

Supplies & Equipment for Dental Exams & Treatments

COMPANY HISTORY & PAST PERFORMANCE

In 2002, Lisa Hartig, a Registered Dental Hygienist at the time, started a local dental staffing agency in Wisconsin.

Since then, Complete Mobile Dentistry, Inc. (CMD) has expanded beyond 800 active dental professionals that provide their services to military bases and other government entities seeking dental support services. CMD supports Logistics Health Incorporated in their work with the United States Armed Forces. Through collaborative efforts, CMD continually ensures that service members meet dental readiness standards, are able to serve our country and meet overall agency missions. It is an honor to be part of such important missions.

In June of 2015, we reopened our staffing agency, now a national agency called Complete Dental Staffing, LLC. We specialize in providing ideal placement for dental offices of all sizes, ranging from last-minute absences to permanent placement. We provide coverage for dentists, dental assistants, and hygienists. We have proudly served dental clinics and offices in five states and are expanding our network.

On December 1st, 2018 Complete Mobile Dentistry officially started work on its newly awarded Dencom contract to provide Professional and Ancillary Dental Services for the Dental Health Command for the United States Army. This contract alone allows us to employ 174 fulltime dental employees on 17 Army bases within 11 states on the Pacific Coast and central states including Alaska. Our staffing includes Dentists, Dental Hygienists, Dental Assistants, Oral Surgeons, Oral Surgeon Assistants, Endodontists, and even Laboratory Technicians. We are proud to be the prime contractor on this five year, 100 million dollar contract.
